

FUSION UNDERPADS

Patient care underpads

2021 v.1

The Facts

- “Stay Dry” technology features distinct characteristics to promote skin care: rapid wicking and high absorbency
- Ultra thin profile lays flat
- Reduces pressure points and eliminates wrinkling & surface puckering
- Ensures fewer bed linen changes
- An eco-friendly alternative to disposable incontinence pads

FUSION creates a smooth surface for a care recipient's sensitive skin. With skin integrity at the forefront of its mandate, FUSION helps protect the patient's skin from moisture, shear and friction.
